

GreaseMax® - mining, mineral processing, quarrying

GreaseMax lubricators have a proven track record for lubrication of equipment in mines, mineral processing plants and quarries.

Applications include:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Conveyors | <input checked="" type="checkbox"/> Fans |
| <input checked="" type="checkbox"/> Pumps | <input checked="" type="checkbox"/> Thickeners |
| <input checked="" type="checkbox"/> Motors | <input checked="" type="checkbox"/> Drills |
| <input checked="" type="checkbox"/> Drives | <input checked="" type="checkbox"/> Screens |
| <input checked="" type="checkbox"/> Flotation cells | <input checked="" type="checkbox"/> Cranes |
| <input checked="" type="checkbox"/> Filters | <input checked="" type="checkbox"/> Mobile plant |
-
- Bearings operating in dusty or wet conditions are continuously re-greased and purged
 - GreaseMax lubricators have the capacity to pump through long feed lines which are often needed
 - Lubrication-related failures are minimised or eliminated
 - GreaseMax lubricators are intrinsically safe and can be used under-ground
 - WHS: physical access & safety issues are reduced: height, process hazards, moving machinery

GreaseMax
continuous automatic lubricator
simply superior!
