

SHIPS and BOATS

GreaseMax lubricators provide an excellent solution for ship and boat lubrication.

- ☒ Drives
- ☒ Stern glands
- ☒ Ramps and doors: front, side and stern
- ☒ Cranes
- ☒ Hatch covers
- ☒ Davits
- ☒ Pumps
- ☒ Steering gear
- ☒ Engine fuel control rods and governors

Continuous lubrication eliminates bearing problems caused by salt water contamination.

Below decks the operating conditions are often hot or humid and equipment is in difficult-to-reach confined spaces.

GreaseMax lubricators can be used in wet conditions and under-water.
